

Wreak (Psychological, sociological & communication (rajterm

Wreak (Psychological, sociological & communication rajterm) Is a Context, condition, and underlying possibility, in which human being can somehow realizes and fulfills his real or imaginary dreams, wishes, and aspirations in the world around him. For example, wealth, power and technology allow people to be in a condition where they can mold and project their mentality, dreams, and talents in the real world (as it is by creating and making new equipments and tools) or in a virtual world (as it is in the intellectual cinematic world)
